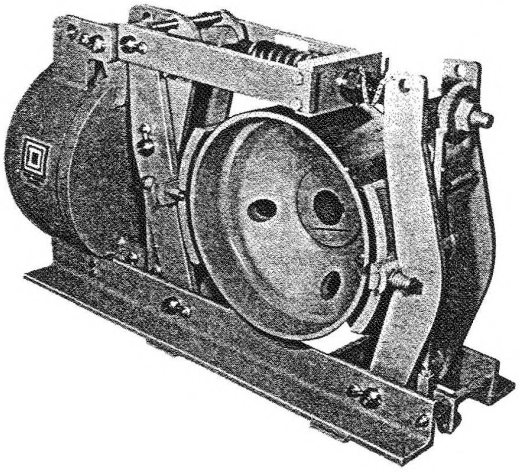
NEW

NON-ASBESTOS BRAKE LININGS



FOR CLASS 5010 WB BRAKES AND CLASS 5060 AT BRAKES

- Brake linings contain absolutely no asbestos.
- Now available for all sizes of Type T and Type F WB brakes and adjustable torque brakes.
- The new non-asbestos lining is easily distinguished from the old asbestos lining by color. The non-asbestos lining is green with brass colored particles and asbestos lining is gray with silver colored particles.
- The new non-asbestos brake lining provides *300% increase* in lining life with no increase in brake wheel wear.
- Prices for brake lining kits have been increased due to increased cost of providing a non-asbestos lining with increased life.
- Order brake lining kits by existing part numbers.
- Asbestos lining kits for Class 5010 WB and Class 5060 AT brakes are no longer available.

NEW DIRECTIONS IN CONTROL!
