Exhibit B

January 18, 1973

TO: Feed Control Contacts

SUBJECT: PCB Comments

Gentlemen:

Enclosed is a copy of our comments filed with the Hearing Clerk on the Food and Drug Administration's Environmental Impact Statement - in particular, that portion relating to feed and feed ingredients.

You are urged to review these comments, and, should you desire to do so, immediately file your own comments - or an endorsement of AFMA's comments. Should you hold any information indicating the proposed levels of 2 and 2.ppm are unrealistic, please consider including same with your comments.

Sincerely,

Lee H. Boyd, Director
Feed Control & Nutrition
