Joseph E. Shelby, M.D.
54 West Fayette Street
Uniontown, Pennsylvania 15401

Dear Dr. Shelby:

Thank you for taking time from your busy schedule to review with me the results of the OSHA physicals to date.

I have advised Tom Whelan to set up appointments with your office for complete physicals and medical histories on the following employees who had other than normal X-ray results:

William Ghrist	David Furtney
David McNatt	Edward Lyons
Michael Horchar	Harold Martin
Donald Murphy	David Zebley
Alfred Tressler	Alvin York
Charles Ortman	Gerry Brandt

In addition I have asked Mr. Whelan to identify previous X-rays which may have been taken of these employees, and to assist you in securing them so that comparison readings can be made and included in your medical report. We feel that your evaluation of the entire man, his past and present history (personal and occupational) is a vital part of our preventative medical program at our Mount Braddock Works.

Please feel free to refer these employees for any additional testing or specialist consultation as you may deem advisable. The cost will naturally be borne by the Company. We will await your medical report and advise as to diagnosis, suggested treatment, follow-up, and any job assignment counsel you may render.

Very truly yours,

David B. Woodbury
Industrial Relations Manager

cc: T. Whelan

NOTE: Attached is your file copy on David Furtney which I took with me in error.
