ONES and

be added each year to keep the
camellia in a vigorous condition.
Shading the blooms a little during
the blooming period may help to
prevent sunburn. Blasting is apt to
result if the petals or opening buds
are wetted. A fungus trouble also
attacks the flowers at times and

land measuring 16 feet on its long-
est side, 10 feet on the shortest, and
13 feet on the third side.
The city acquired the lot from
the New Haven railroad through
condemnation proceedings. Bear
