Attached is a copy of the Springgate/Bergen memo to Wink Corey dated January 19 and discussed in the Papageorge meeting on January 24. As authorized by Corey in that meeting, I am proceeding with Items (1) thru (5) in the referenced memo. I assume you are proceeding on Items (6), (7), & (8). In the meeting, you suggested you would like our group to deal with General Electric as described in Item (9) 'Printed Circuit Laminates'. If I am correct, will you furnish me with the proper contacts at G.E. and necessary background information.
