Mr. Charles W. Boswell
Vice President
Monteagle Silo Company, Inc.
P. O. Box 798
Monteagle, Tennessee 37356

Dear Mr. Boswell:

Enclosed are the laboratory reports on the silage and scrappings from the silo of Albert Cagle, Canton, Georgia. The silo was built in September, 1969, by Monteagle Silo Company.

Mr. Cagle is planning on putting grass silage in the silo again. I would appreciate your contacting Mr. Cagle at once to remedy his PCB problem. The PCB is also showing in his milk at a high level.

Mr. Cagle is a producer distributor and all milk is sold directly to the consuming public.

Yours truly,

Gene Dally
Assistant Division Director-Milk
