Subject TECHNICAL DATA SHEETS/BULLETINS

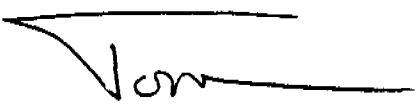

As we discussed, below are the recommended changes for the enclosed Tech Data Sheets. The following sheets should have the attached statement after the Storage and Transfer section.

M-62	225	530
M-56	410	532
M-42	450	620
M-24HP	451	630
120	485	
130	490	
174	514	

Inserts #1 and #2 should be deleted from all sheets. The Safe Handling and Spills-Clean up and Disposal sections have been combined.

The sheets for PC-500, PC-555, and M-24 remain as changed on the modified sheets.

With these changes we feel the purpose of the Tech Data Sheets can be achieved as well as limiting our liability in assuring that customers will obtain a MSDS if they begin using the product.

SAFE HANDLING

Exercise precautions consistent with handling chemicals of this type. The liquid is rapidly absorbed through the skin and can cause severe burns. Absorption through the skin or ingestion can produce severe systemic reaction. (Product name) is classified as combustible. Provide adequate ventilation to minimize vapor accumulation. If material is spilled, it should be picked up mechanically and contained for disposal according to established Federal and State procedures.

THE DATA CONTAINED HEREIN IS FOR GENERAL INFORMATIONAL PURPOSES ONLY. PLEASE REFER TO THE CONOCO CHEMICALS COMPANY MATERIAL SAFETY DATA SHEET FOR SPECIFIC, COMPLETE INFORMATION REGARDING THE PRODUCT.
