Johns-Manville Officer Changes Are Final Today

Gill Eggleston has taken over as manager of the local Johns-Manville plant, and Jack Hesse, manager since the plant's inception, left today for Green Cove Springs, Fla., where he will manage a J-M plant under construction.

Two other management changes were announced today at the local plant.

Eugene Derichsweiler, first man hired here by Johns - Manville in 1957, is being transferred to the Green Cove Springs, Fla. plant effective March 1. He is finance director here and will be manager of plant services there.

Bill Roush, head of the industrial engineering department at the local plant since July, 1960, has been promoted and will assume Derichsweiler's duties while continuing his present assignment.

Derichsweiler, 33, is a native of McAlester, Okla. who moved here when a high school sophomore. He graduated from St. Xavier's Academy in 1950 and attended Austin College a semester before going into the Seabees in 1952 for a two-year hitch.

Continuing his education at Southeastern State, Derichsweiler completed a BS degree in mathematics with a minor in physics and chemistry. Meantime, he was married to the former Miss Mary Helen Carlat, then a teacher in the Denison Schools. They now have three children, Gena, 6, Dana, 3, and iKrk, 2, and reside at 1701 Waterloo.

Derichsweiler became the first man employed by Johns-Manville here when he was named junior industrial engineer Aug. 1, 1957. He was promoted to finance director, a position which includes other responsibilities also, last September. At Green Cove Springs Derichsweiler will manage the finance office plus planning, scheduling and shipping, and administration of the sales office.

Mr. and Mrs. Derichsweiler will fly to Green Cove Springs next week to look for a place to live. They plan to leave Denison about Feb. 20.

Roush, 40, is a native of Canton, Ill. where he completed high school. His BS degree is from the University of Illinois industrial administration school. Roush became an industrial engineer with Johns - Manville at the Waukegan, Ill. plant in 1955.

During World War II Roush was a Navy air crewman. He returned to duty for the Korean War as a carrier - based pilot, and was discharged as a lieutenant JG.

Mrs. Roush is the former Miss Norma Robinson of Waukegan, and they have three children, Cathy, 11, Bill Jr., 9, and Dave, 7. They live at 1312 West Munson.
