Mr. Richard Lustig
Freeman United Coal Mining Co.
Operations Office
West Frankfort, IL 62896

Dear Mr. Lustig:

Enclosed is the NIOSH study of occupational exposure of electrical equipment workers to PCBs (Brown & Jones Study) that we discussed.

I am also enclosing a copy of a summary of the National Electrical Manufacturers Association report on PCB Health Effects by the Drill, Friess et al consulting group, along with details of how to order the report.

I hope this will be helpful to you.

Sincerely,

John H. Craddock
Product and Environmental
Safety Director
