Dear Mr. Jablonowski:

Enclosed is a another copy of the tracing records that I sent you a few weeks ago for 44 former Monsanto employees. This copy contains the names and birth dates of the employee's dependents (spouse, son, and/or daughter) when the employee completed his/her application for employment at the Monsanto Company. In some cases, there were no dependents listed, which may have been a result of the employee's marital status at that time.

If there is any additional information that I can provide for you, please do not hesitate to contact me (314-694-8845).

Sincerely,

Terry L. Leet

Dear Denise:

As requested, I have enclosed the tracing records for Krummrich employees who were eligible to participate in the Northwestern/ Monsanto health study, but were not located by Hooper Holmes, Inc. If you have any ideas on how to locate these employees, please give me a call.

Sincerely,

Terry L. Leet
