Biomedical and Environmental
Special Programs
Chemical Manufacturers Association
2501 M Street, N.W.
Washington, D.C. 20037

Monsanto will support the CMA PCB program. However, we strongly feel that the issue is significantly broad and has enough potential impact to affect the entire chemical industry and CMA membership. Accordingly, we believe that this issue should be handled as a CRAC Committee program and not a "special interest" SPAG project.
