SUMMARY REPORT OF SAMPLES COLLECTED

From: Rosedale Dairy Farm
P. O. Box 333
Tuscumbia, Alabama 35674

Original Lab No. 7996 / 8121 Findings Arochlor 1254 - 1.8 ppm.

Re-Samples

Product	Lab No.	Results
80 - Silage - Middle Silo)	8319	Arochlor 1254 - .20 ppm.
80 - Silage - Edge of Silo)	8320	Arochlor 1254 - 22.8 ppm.
80 - Rock from silo)	8321	No Significant Residue
80 - Scrapings from Silo	8322	Arochlor 1254 - 1575.4 ppm.

Conclusions

To avoid further production of contaminated milk the feeding of present supply of silage should be stopped and the inside of the silo should be stripped out and refinished with materials which are free of Aroclors (BCB)
