January 15, 1974

TO THE MEMBERS OF THE SPECIAL
COMMITTEE ON JOINT TREATMENT
COMPOUND

Gentlemen:

In a recent conversation with Chairman Volk it was learned that Mr. Soule of George D. Clayton and Associates had assembled the data relating to the second phase sanding tests in Denver. However, because of a busy travelling schedule he was unable to compile his final reports. It is anticipated that the reports on asbestos and also on total dust will be issued approximately the first of February, 1974.

Reports when received will be distributed by the Chairman. At that time it may be necessary to schedule a meeting to evaluate the reports. You will be kept informed.

Very truly yours,

H. B. Carlsen

H. B. Carlsen, Secretary
Special Committee on Joint
Treatment Compound
