An IC Industries Company

Memorandum

Date: April 15, 1980

Subject: Delco-Moraine Call Report 8346

From: D. A. Shackelford

To: L. Earle Bretz, Jr.

In the last paragraph of the subject report, you suggest that Winchester Purchasing commit to Delco-Moraine for several hundred shoes for experimental submissions. I am sure you are aware that purchasing cannot issue a purchase order without an approved requisition, in this case from Al Indelicato's department. I discussed this with Al and he advises that there is not yet established an approved program for this experimental work and therefore feels it is premature to requisition several hundred shoes.

Unless I hear from you or Al, I will take no further steps in this matter.
