Meeting is scheduled on Monsanto landfill

SAUGET — Residents' questions about the possible cleanup of an old Monsanto Chemical Co. landfill in Sauget will be addressed at a public meeting next week.

The meeting will be at 7 p.m. March 11 at the village hall.

The meeting is part of an 18-month study by Monsanto to gauge pollution risk and examine cleanup options.

The 36-acre landfill is west of Illinois 3 and was used as a dumping ground for chemicals from the W.G. Krummrich Plant from 1959 to 1977.
