PITY.

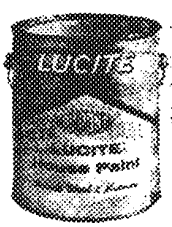
You could be doing something else.

If only you didn't have to paint your house this weekend. (Almost anything would be better than that.)

But the house needs painting, and you're stuck with the job. Our sympathy. We know it's a chore. All we can offer you is a way to cut down the mess, and get it over with faster.

Plus a lot of extra free time for doing "something else" before you're faced with painting again.

Du Pont LUCITE® House Paint saves you time on the job, and lasts longer, too.



- Proven to resist blistering, cracking, peeling and color fading better than oil-base paints.
- Minimum preparation. Prime only bare spots.
- Dries in half an hour. Paints over damp surfaces.
- Starting and stopping points blend....
- Fast, simple cleanup with just soap and water.
- Use it on wood, stucco, masonry—anything.
- Now available in hundreds of custom colors.
- Made on the West Coast for West Coast homes.

Less work, more wear from easy-to-use LUCITE.

You're done quicker than with ordinary oil-base paints. And you don't have to repaint nearly so soon.

That's what Du Pont Lucite® House Paint is all about. It's the house paint for people who don't like to paint houses. For people who have better things to do than paint, paint, paint.

Before you buy paint, think about it. About all those other things you'd like to be doing instead of house painting. Can be doing for quite a while if you paint with Lucite.
