Telephone call from Alan Van Buskirk, Research Chemist.

SEATTLE OFFICE: Arrange for one pound samples each of Aroclors 1221, 5442 and 5460. Mail price sheet, Arocior Plasticizer brochure, Technical Bulletin O/PL-345 Solid Plasticizers, O/PL-347 Santicizer 160 and Santicizer 711 booklet.

PLASTICIZERS: Mr. Van Buskirk is trying to blend modifiers with possible acrylic, Ketons and Phenolics and he wants his end product to be a solid below 150°F and be fluid above 200°F. We discussed the Aroclors, Santicizer 160 and 711 and initially agreed to send him one pound samples of the various Aroclors. He is a customer of Great Western Chemical Company and it was Mel Larson who suggested he call me direct. For further samples or experimental - commercial quantities he will purchase from Great Western.
