

April 30, 1952

Mr. Manfred Bowditch
Director of Health and Safety
Lead Industries Association
420 Lexington Avenue
New York City 17

Dear Manfred:

In the matter of the work on the lead compounds which you supplied to us, or on others of the group, I spoke to Doctor Suskind following your last comments on the subject. He feels that everything has been done that should be, so far as tests of the type originally contemplated are concerned, and that the report to you has conveyed our further ideas or suggestions in a satisfactory manner. If there is anything further that you would like us to do, or if there are further questions in your mind, do not hesitate to let us know; otherwise, we seem to have completed the assignment.

Sincerely yours,

Robert A. Kehoc, M. D.
