Dr. William E. McCormick
Department of Industrial Hygiene
and Toxicology
The B. F. Goodrich Company
Akron, Ohio

642

Dear Dr. McCormick:

This is in reference to your letter of November 20 regarding Geon Resin 101 EP which has been proposed as an ingredient of plastic film used for packaging federally inspected meat food product.

Geon Resin 101 EP is acceptable to this Division as a component of plastic film intended for packaging meat or meat food product. The Kemtek Corporation, from whom the inquiry was received regarding the acceptability of this vinyl resin, has been so notified. I am sorry that we failed to notify you of this fact also.

Very truly yours,

R. M. Mehurin, Chief
Laboratory Section
Meat Inspection Division
