San Francisco, Feb. 18, 1898.

Messrs. H. P. Fullerton & Co.,
214 Front St.,

Gentlemen,

We will draw 47½ tons English Lead from the Beale St. Car, beginning to-morrow.

If you wish us to continue turning out 14 tons per day, of lead in oil, the balance of this year, we will have to receive 325 tons of Pig Lead per month beginning March 1st.

With the present amount of 150 tons per month, we can only turn out 14 tons a day until June 1st, when we will have to shut down one mill, which means decreasing our capacity to 7 tons lead mail per day.

Yours truly,

Pioneer Lead Works,
