recall receiving information to that effect?

A I can't recall. I -- Dr. Selikoff made lots of public relations comments in the newspapers to go and advocate banning of asbestos. Originally he started out saying we can control asbestos and then someplace between that and here, apparently he was -- says there was no safe level.

Q Did the Asbestos Study Committee --

A I didn't read the Daily News, by the way.

Q Okay. Did the Asbestos Study Committee of the FMSI ever conduct any effort to determine the incidence of asbestos-related cancer in the population of people repairing brakes on motor vehicles?

MR. FRIESTEDT: Objection.

A No.

Q Why?

A Say your question again.

Q Why?

A Well, go back to the question before. I mean, christ's sake, you make such long questions that I have difficulty following them. And I'm trying to go -- I'm trying to go and give you correct answers.

Q I apologize, Mr. Drislane.
