C. Paton - B2SK
Field Sales Secretaries

On May 6, 1976 I sent the attached memo to Field Sales which defined our policy with regard to customer inquiries on PCBs.

In the past few weeks I have noticed a number of inquiries requesting data on past shipments of PCB containing Pydrauls. Please reread the attached memo and respond to your customers accordingly. Remember it is the customer who is being asked to account for the use of this product, not Monsanto. We have already done so.

Thank you for your cooperation.
