F. A. Provorny

As discussed, I am not sending customer letters to Sterling Drug/Canada, regarding SANTOPHEN, nor the two PCP customers until we get more confirmatory data. Although we have found no TCDD in either product, I hardly believe "one sample each" is representative of our recent production.

Once we have additional verification, I will forward the customer letters. Your prompt attention would be appreciative. We owe these customers a response.

J. C. McPhillips

mg

*4-6 additional PCP samples at Dayton awaiting analysis
5 additional S-1 samples will be sent by WCK to analyst*

CONFIDENTIAL
SUBJECT TO PROTECTIVE ORDER.
