Hi Lauren,

Thanks for following up! I spoke with our team and our lead on Agriculture - Turner Bridgforth (Senior Advisor for Agriculture and Rural Affairs) is able to join your meeting on the 21st.

Happy to loop you in with him for further detail coordination if this works on your end.

Thanks,
Claire

Michael,

I will be in your office tomorrow meeting with Jess Kramer and her team for another client. I am happy to answer any additional questions for this event if you have them while I am in. My agenda is due this week so I would love to have an idea of whether someone from the EPA team would be able to join us. I can be flexible within the window of 2:15-3:30 pm on May 21.

Thank you,

Lauren Lurkins

Hi Michael,
Thank you for your response. I think the UEP membership would generally be interested in hearing anything the new administration would want to highlight - goals, recent efforts, changes in structure or programs. As far as issues they are interested in, here is the priority list:

- Water
 - Nutrient/water quality efforts
 - Concentrated Animal Feeding Operation rules and the current effort underway with the Animal Ag Water Quality Subcommittee of the FRRCC
 - WOTUS
- Air
 - National Air Emissions Monitoring Study for Animal Feeding Operations and the Air Compliance Agreement
- PFAS

Happy to chat if that would be easier.
Thank you,

Lauren Lurkins

Do you have particular EPA issues you would want a rep to talk about?

Michael,

I got your contact information from my friend and client, Michael Formica at National Pork Producers Council. I am sending you the note below that I sent to Turner and Derrick yesterday. I am hoping you may be able to help me find the right EPA employee to come speak to the United Egg Producers about EPA's work in general and on any of the topics outlined in the attached. I am happy to discuss. I will also be in your office on May 6 meeting with Jess Kramer and OW leadership for another client, the Ag Nutrient Policy Council. Hope to hear from you soon - and meet you in person as well!

Thank you,

Lauren Lurkins

Turner and Derrick,

We have not yet met in person, but will when I am in your office on May 6 for the Agricultural Nutrient Policy Council. I am reaching out today in my capacity working on environmental issues for the United Egg Producers and to follow up on the chain below that I had sent to Travis and Chad. I know both Travis and Chad are very busy, so I do not want to keep bugging them. I am hoping one or both of you would be able to attend this meeting and present to the United Egg Producers - or direct me to the best person to do so.

Please see below for additional detail, but here are the basics:

I would love for one or both of you to join the UEP during our Environment and Sustainability Committee meeting on May 21 from 2:15-3:30 pm at the Hyatt Regency (400 New Jersey Avenue, NW). I can build the agenda around your availability and how long you would be interested in speaking. For background, I am also attaching a letter that was sent to USDA Secretary Rollins with a copy to Administrator Zeldin on the environmental regulatory relief issues identified as part of the egg pricing strategy.

Please let me know if you have any questions or if we need to set a time to briefly discuss.
Many thanks,

Lauren Lurkins

Travis and Chad,

I was able to get additional detail on the United Egg Producer meeting to which I would like to invite EPA reps to speak to the nation's egg producers on your work. Our committee meeting will be May 21 from 2:15-3:30 pm. In my previous email, I noted I was awaiting the specific time that afternoon. Of course, if it is easier, we could plan to bring a few egg producers to your office instead on May 22. Please let me know your preference and who I should work with to schedule.

Thank you!

Subject: United Egg Producer - Invitation to Join Us

Travis and Chad,

I hope you are both well. I am reaching out to extend an invitation for you and/or your key leadership and staff to join the United Egg Producers Environment and Sustainability Committee while we are in DC on May 21 and 22. The committee is comprised of representatives of egg farms from across the country who have a specific interest in environmental regulatory issues, but the meeting is also open to general UEP membership to listen in. Our meeting will be at the Hyatt Regency (400 New Jersey Avenue, NW) with committee meetings on May 21 from 1:00 pm- 6:00 pm. If that day would work, I can provide you the specific time and location for our committee meeting within that window. As an alternative, I could also bring a group of committee members to the Agency on May 22 around their meetings across town. The topics in which we have interest are all those outlined in the attached letter, but we would also welcome Agency representatives to fill us in on other Agency priorities. Feel free to reach out to discuss or send me to the proper folks for scheduling. I appreciate it!

Thank you,

Lauren Lurkins

Subject: United Egg Producer to USDA Secretary Rollins, Referencing EPA Regs

Travis and Chad,

On behalf of the United Egg Producers, I wanted to share with you a courtesy copy of this letter that was sent today to Secretary Rollins regarding her priority issue of HPAI in the egg industry. As you know, she committed to work with Administrator Zeldin on any issues of regulatory reform for the egg industry. We have laid out several environmental issues out for her in Attachment A to this letter. I am happy to set up time to chat with you all, and also bring in the leadership of the United Egg Producers as needed.

I look forward to working with you and your teams on all of these issues.

Thank you,

Lauren Lurkins
