W. B. Papageorge
D. Cova - T3C
R. S. Bergen
T. L. Gossage

Re Dario Cova's memo on monochlorobiphenyl specification and also the utilization of still bottoms for dielectrics, it would be a good idea to get together with the carbonees to make sure everyone understands the implications before we finalize a contract with Dow. Can you please nominate a suitable date and place.

Thank you.

C. Paton
