the suspension of the program was something that the FMSI voted to do or was it something that various members requested that it suspend?

A I can't answer that, I don't know.

Q What committee work was responsible or involved with the Historical Sales Program before it was suspended?

A No committee to my knowledge. Again, I don't know, no committee that I know of.

Q What positions at the FMSI would be involved in the Historical Sales Program?

A The director, this is a three-person office. This is not a big bureaucracy.

Q Next we talk about the presidency of James McGovern. Again this is the same Mr. McGovern who was previously vice president and involved with Raybestos-Manhattan; is that correct?

A Yes.

Q It indicates he was president from 1961 to 1963. And then from 1963 to '65, a Mr. Arthur Smith was president and a Mr. Alexander Bette, B-E-T-T-E, of Johns-Manville was elected vice president in June of 1963. Did a company need to be an active member for one of its executives to have an elected office at the FMSI?
