Drywall Sanding / Drywall Vacuum Systems

Fantastic Drywall Tools currently carries the the 7800 Porter Cable Drywall Sander Head and Loveless Wet/Dry Drywall Vacuum, as well as, the Loveless Drywall Sander Head to help make up a complete Drywall Sanding System.

We only carry the Loveless Drywall Vacuum, because it will not lose air suction as the pre-filter bag fills up and it will not have blow back putting drywall dust into the air.

We highly recommend use of the "QUIET" Loveless Drywall Vacuum, it also provides the high volume of air required to drive the Loveless sander head. Scroll down to see more information and prices on our Drywall Sanding Tools.

The New "QUIET Dustless" Wet/ Dry & Drywall Vacuum

Will Not exhaust dust. (No need to clean twice.) By LOVE-LESS Co.

Model #160-04 QV This drywall vacuum is designed to remove very fine dust that is usually a problem with the wet/dry vacuums that are available on the market today. This drywall vacuum is reasonably priced for the great service that it will give.

Check Out the Benefits:

- No need to change filters when changing from wet to dry pick up. (Used to be a real hassle)
  Filters can be cleaned without removing the lid. (Takes 30 seconds to do)
- Excellent on Drywall dust! Will Hold Up To 60 lbs Of Drywall Dust. (Every contractors dream)
- All the tools including the hose are stored onboard the drywall vacuum. (How convenient)
- The drain can be regulated from a drip to a full flow when emptying liquids, Suction hose can be used as a drain hose. (You can actually hit the floor drain)
- Automatic air shut off for wet pick ups.
- Patented double filter system.
- Designed with the contractor in mind.
- 16 gallon
- 11.5 amp motor
- 116 CFM
- 8' Flexible Air Line Hose
- Powerful 23000 RPM motor
