EM POTTER - St. Louis

In response to your telex of July 19th this note will serve as written certification that the following actions have been completed in Europe.

(1) 1. Sales of all PCB products other than hydraulic fluids for German mines and dielectric fluids were terminated on January 31, 1972.

2. Sales of PCB dielectric fluids were terminated on March 31, 1972 except to approved customers who satisfied Monsanto'special requirements.

(1) 3. Sales of plasticisers containing mono-chlorobiphenyl and/or PCT were terminated on March 31, 1972.

4. Sales of industrial fluids containing PCT were terminated on June 30, 1972.

5. All remaining inventories of products containing MCB,PCB and PCT have been accounted for and disposal has been or will be made in such a manner that would preclude environmental contamination or exposure to humans or domestic animals.

Certified Accomplished
excepting note below.
