Bob Parker of Foremost called me today from San Francisco and we had long discussion on detection of Therminol in cooking oil. They suspect they might have Therminol contamination at Crookston and want the cooking oil tested.
Parker, who is Quality Control Mgr., will have Crookston send 4 used cooking oil samples as well as an unused sample of cooking oil to SENE as a standard for GLC. Samples will probably arrive 11/16 or 11/ 17.
If there are any problems concerning analysis, let me know or call Parker direct at (415) 391-6161 ext 294
