The injured were taken to three hospitals — St. Elizabeth, St. Mary of Nazareth and Lutheran Deaconess. Several hours after the accident, 19 remained in hospitals for additional treatment. The others had been released.

April Income Sets Record

WASHINGTON, May 18 (UPI)—Americans earned more money in April than ever before, the Commerce Department reported today.

It said personal income scored a $3,200,000,000 increase during the month, bringing individual earnings to a record annual rate of $372,700,000,000.

Most of the April increase —$2,700,000,000— was in wages and salaries. This resulted in part from the fact that the number of employed Americans jumped to a new April record of 65,012,000, an increase of about a million over March.

If personal income continues to post gains equal to those of the last few months, the $374,000,000,000 total now predicted for 1959 will be topped. The total for 1958 was $354,400,000,000.

The income record came on the heels of another government report yesterday that the nation's output of goods and services hit a record annual rate of 467 billion dollars for the first three months of this year.

10 Die In Bus Crush

MANILA, May 18 (AP)—Ten persons were killed and 44 injured last night when a bus carrying 100 fast down a mountain 40 miles north of Baguio, the Philippine summer capital.

EGG PRICE DECREASE

Ralph M. Sessoms, secretary-manager of the San Diego Cooperative Poultry Association, said the same situation existing here is being felt by egg producers throughout the nation.

Sessoms said the oversupply is resulting primarily from a 2 to 3 per cent increase in the poultry flock since last year and an increase in egg production per hen as the result of better feed and other factors.

Adolph said a late winter and spring in the Midwest is partially responsible.

Eggs yesterday were selling here at an average of 11 cents a dozen cheaper than at the same time last year.

25-40 CENTS A DOZEN

Prices ranged from 25 to 40 cents a dozen, depending on size and grade. One supermarket chain was selling Large AA eggs at three dozen for $1. Lower grade eggs were selling in some stores at 25 cents a dozen. There is a markup of 8 to 15 cents between the producer and final sale for grading, packaging and handling.

"Thirty to 32 cents per dozen will just pay the feed bill," Adolph said. "And that leaves nothing for miscellaneous costs including hired labor, vaccine, taxes, depreciation, interest on loans, etc."

Egg production is San Diego County's largest agricultural industry. Last year 54,550,000 dozen eggs were produced in the county with a total value of $19,803,650.

The county exports more than 12 million eggs a month, mostly to Los Angeles and Arizona. Last month more than 60,000 cases, or 21,600,000 eggs, were exported.

Plans were made yesterday in Washington to launch an intensive nationwide campaign to shore up the sagging egg prices by persuading the public to eat more eggs.

Agricultural Secy. Ezra Taft Benson met with representatives of 36 food and farm groups in a conference to plan the campaign to combat what Benson called the
