J. F. Stapleton - C1NA

Your letter of December 27 discusses a possible visit by a Dr. Powell, but makes no recommendation.

From the plant standpoint, I see nothing to be gained and do not propose to proffer an invitation.

If the business group feels that such a visit is desirable, Jerry Bratsch, Des Hosmer and I would like to discuss the subject with you to explore where we might be harmed by any "fishing expedition."

F. J. Holzapfel
