Thomas Ford
Monsanto Co.
St. Louis, Mo.

Dear Mr. Ford:

I am trying to put together a newspaper story on whether or not polychlorinated biphenyls (PCB) have any pollutant effect upon the environment, wildlife and man himself.

I am a complete idiot in the chemical field, although I have written fairly understandable articles on DDT and other pesticides.

I would appreciate any help you can give me on the PCB-pollutant situation.

Yours truly,

Robert A. Hoving
