Dear Griz:

Thank you for sending along our copy of the Ethyl-Monsanto vinyl chloride know-how agreement with your letter of April 5, 1956. The down payment called for by paragraph 4.1 of the agreement will be made directly from our New York office, and I am requesting that this payment be sent directly to Monsanto at St. Louis.

I also want to thank you for the fine treatment your people gave Clarence and our team during their visit to Texas City last week. Our team was very impressed by your technical staff and we certainly appreciate the fine spirit of cooperation you and your associates have exhibited both during the negotiations leading up to the know-how contract and during the meeting last week.

I am enclosing for your use ten conformed copies of the contract. We still have a few extra ones on hand, so if you need more please let me know.

Yours very truly,

Donald L. Johnson  
Associate Patent Counsel
