Good letter

September 19, 1977

Mr. R. M. Bodin, President
Bodin Fisheries Division
Bodin's, Inc.
Bayfield, Wisconsin 54814

Dear Mr. Bodin:

The machine copy of a letter, dated July 8, 1977, from N. E. Kirschbaum, Administrator, Food and Standards Division, Wisconsin Department of Agriculture which you sent in late August to our office in Des Plaines, Illinois, has been referred to me.

We note that Mr. Kirschbaum's letter is an admonition. Although we hope that you will sustain no loss and incur no fine, Monsanto cannot be held accountable for any such consequences because we are not responsible for PCB residues in fish in Wisconsin or elsewhere.

Very truly yours,

J. Coleman Weber
Manager
Product Acceptability
