FROM (NAME & LOCATION) Industrial Hygiene - Chocolate Bayou Plant

DATE : December 20, 1977 CC: C. A. Coburn

SUBJECT : ISSUANCE OF RESPIRATORS

REFERENCE

TO : W. R. Eernisse
J. R. Grupe
R. D. Jeffers
L. C. Lambeth
T. L. Moore
R. L. Thetford

Attached is our new Policy/Procedure for issuing respirators. I have asked for your assistance in giving approval during the off shifts.

Ground rules:

1. Normal, routine requests for respirators should be made to Industrial Hygiene group on day shifts. Fire Safety Inspectors can give approval for emergency/unusual situations during off shifts. If you find you are receiving non-emergency requests on off shifts, please refer the individual to Jim or myself - the objective here is to force planning ahead.

2. On the back of the approval sheet is a guide for proper respirator selection. Please check to insure the requestor is really requesting what he needs. If there are questions please call Jim or myself.
