SUBJECT

PCB WASTE TREATMENT EFFLUENT  
W. G. KRUMMRICH PLANT

REFERENCE

TO

Mr. Cole Weber  
General Offices  
B2SK

Two 16 oz. samples of our PCB waste water effluent were sent to:

K. H. Sweeny, Ph.D.  
Envirogenics Co.  
9200 East Flair Drive  
El Monte, California 91734

The samples were taken at the discharge of the Sauget Waste Treatment Plant to the Mississippi River. The WGC laboratory analyzed the PCB content at 12 ppb (parts per billion). This amount is equivalent to a discharge of 1.5 lbs. of PCB per day to the Mississippi River.

Edward E. Stewart
