DU PONT 5-YEAR LEAD STUDY

In reply to your wire of July 7, 1970 requesting urine sample containers, three cartons of sample containers were sent from Chambers Works Medical Laboratory last week and should arrive shortly.

Our procedure is to return a carton of empty containers whenever a carton of samples is received. Due to the distance between Antioch and Chambers Works this procedure can involve several weeks delay. In the future if you would either phone or send a wire, (Haskell Laboratory, Elkton Road, Newark, Delaware 19711, Phone 302-366-2110) when your last sample containers are used I could expedite the shipment of sample containers.
