

1 asbestos dust.

2 Minnesota Mining and Manufacturing, that is
3 3M, respirator model 8710 should be used for this
4 purpose.

5 The next document is an Owens-Corning
6 document 386, and we would offer this under the
7 general Dartez theory as well against Owens-Illinois
8 and Ford.

9 THE COURT: 386 will be admitted.

10 MS. TOSTANOSKI: Objection.

11 MR. WILLIAMS: Objection.

12 THE COURT: Overruled. 386 will be
13 admitted.

14 (Whereupon, Plaintiffs' Exhibit Number 386
15 was received into evidence.)

16 MR. SMITH: Dated October 13, 1970,
17 regarding the Chembest respirator program and a copy
18 is attached of that program.

19 Highlighted portion says: It must be
20 pointed out that these 3M masks are essentially
21 useless against toxic materials such as asbestos.
