Gentlemen:

Re: Turner Bros. Asbestos Co., Ltd.
Rochdale, Larcs, England

We are interested in having an assignment search made on the above company for all patents in the field of asbestos yarns. As you are aware, Turner Bros. is affiliated with the Turner-Newall group of companies. There will be many patents in the asbestos field; however, we are interested only in the asbestos yarn patents.

It is not necessary to search for patents issued before 1960.

One of the important inventors Turner Bros. has in this field is H. C. Gueeler of 8 Furness Road, Hursthead, Cheadle - Hulma, Cheshire.

There is no urgency in the above matter.

Very truly yours,

Matthew Babinski
Patent Attorney
