A Because he was an active member of the Institute.

Q Why would the Institute be interested in that organization?

A Why would the Institute be interested the National Highway Traffic, because they were going to make laws and regulations involving brakes and brake systems and they might put the whole thing on the brake lining people.

Q What do you mean the whole thing?

A The brake system is a system and there is a lot of parts of it and one of them is the brake lining. And people might say if you get better brake linings the brakes would be a lot better but it might be part of the system, too. There is a lot more to this and -- I think your question is kind of opening up too many things of which I am not familiar.

Q Were there other agencies that were involved in regulating FMSI-related matters that Mr. McGovern met with?

A Not to my knowledge. Basically he got an introduction to get down to the people who became the NHTSA.

Q The next tenure is a Mr. Stephen Conway who was elected president and that's for the period 1969 to 1971. And Mr. Conway of Abex Corporation had previously served as vice president when Mr. Kelly of Bendix was president of FMSI. And this then would take us into the time period where
