MONSANTO CHEMICAL CC PANY

JUL 6 1964

From : Los Angeles

cc:

DATE : July 2, 1964

SUBJECT :

REFERENCE :

TO : ELMER P. WHEELER
ST. LOUIS

Claire Barton from Poison Center in Los Angeles contacted me today concerning the toxicity of Pydraul AC. She was doing this at the request of Union Oil Company. She mentioned that in a telephone conversation with you, she had gotten the necessary information and that you were going to send her a memo spelling out the toxic effects of this compound and the LD in rats.

I would appreciate it if you would send me a copy of the memo you are sending to Mrs. Barton so that I might have this information at hand in the event further inquiries come in.

Thank you.

J. R. Rich
