Aroclor 1254 (Plasticizer Grade)
Therminol FR 1

Memo 2/8/72 Same Subject

J. L. Corder 1060
R. B. McCutchan 1740

Attached are copies of stick on caution labels used for our Aroclors and Therminol. Central Distribution notes these have been used in the past for all stenciled containers when product labels were not used or not available.

Where possible, please confirm the effective date of receipt and other information for Therminol FR 1 and Aroclor 1254 (Plasticizer Grade) requested on February 8 for the product labels.

Jess, apparently all Aroclor 1254 product labels used between 1954 - 1965 were the 1954 edition. Do your records indicate when that particular label was phased out at Anniston? Presumably all Aroclor 1254 containers during the 1960's were stenciled with the stick on label.

Thanks for your cooperation.

D. R. Pogue
