INDICATE DESIRED SERVICE → ☐ FULL RATE ☐ DAY LETTER ☐ NIGHT LETTER

Names of addressee and sender must include initials. Show complete address for telegrams and cables.

John Gannon
Everett

Re [redacted] and Aroclors. Checked on adhesion data with Al Morgan and found the following:

Aroclor 1254	**1.1**
Aroclor 1260/Santicizer 160	**1.1**
Aroclor 5460/Santicizer 160	**Predicted to be better**

I am not sure of the units above but they can be used on a relative basis. Further, if adhesion is a problem Al feels certain that he can recommend formulations to improve adhesion but at the expense of flexibility, wearability, shatter characteristics, etc. Please pass this information along to W. R. Grace.

W. S. Clark
