Q All right.

MR. McGOWAN: Your Honor, I am showing the witness what has been marked OCF 433.6 and 433.5.

BY MR. McGOWAN:

Q What are those, Mr. Helser?

A This is a photo of the very same carton that shows the stencil of the manufacturing date on the bottom of that particular carton.

Q Back in the '60s, where was this caution notice placed on the box?

A The instruction was to put it on the blank side of the carton up next to the top.

Q Did there come a time when the location of the notice changed?

A Yes, it did. In 1970 it changed the location to the top of the carton.

Q Did the language stay the same or the language change?

A The language did change at that point.

MR. McGOWAN: Your Honor, I will show the witness what has been marked OCF 432-A, 432-B, 432-C.
