R. E. Bilger - RBILG
T. M. Patrick - Res 1
N. W.Touchette - Res 3

O. DeGarmo - Res 1

I talked to Harold Toombs of Mocan, Montreal, concerning his interest in our flame retardant program. He indicated that Oakville is the largest urethane foam manufacturer in Canada and that when we had a modifier to give good flame retardancy in urethane, they would be glad to evaluate it for us.

His immediate interest in monitoring this program apparently will be fulfilled by his receiving the Organic Research Monthly Report. He was advised to write T. M. Patrick directly to be put on the distribution list. Harold indicated that his receiving this monthly report would fulfill his current interests.
