D.V.N. Hardy London TOXICOLOGY - PYROCLOR

TO: H.K. Newman
P.J.A. Marsh/J.K. Campbell
M.A.H. Roberts

With reference to the claim being made by an employee of English Electric (Call Report 27.7.1965 by P.J.A. Marsh) I have asked for comments from M.O. Medical Department (c.o. for MAH.) and attach a photostat copy of the reply.

I will report any further information that may come from Dr. Kelly but meanwhile I am quite satisfied that the mental deterioration cannot be ascribed to Pyroclor and/or its decomposition products, and we should inform English Electric accordingly.

D.V.N. HARDY
