Subject: Presentations from Munich Benzene Symposium

The Munich Benzene Symposium has now been completed. Subsequently, we have now solicited and received electronic versions of the presentations from several of the presenters.

- Thus far we have received presentations from Drs Otto Wong, Richard Irons, and Sherilyn Gross, which are attached.
- As additional presentations are received, we will forward them to the group.

Reminder that the next call of the BHRC Oversight Committee will be September 24 starting at 4 PM.
