TO Mr. M. J. Auzine,
St. Louis.

Dear Merlin:

Dr. R. M. Agarwal, a friend of ours, met me this afternoon. He gave me the news that according to his information, Bayer are negotiating with an Indian party, which he was not able to name, to manufacture Chlorinated Diphenyls in the country.

The terms offered are 50% equity in the new project, Rs.250,000/- as engineering fee and Rs.100,000/- as royalty. I have requested Dr. Agarwal to supply me with any further details which will be passed on to you speedily. This is the first indication of Bayer's active interest in the Chlorinated Diphenyls' manufacture in India.

Regards.

Yours sincerely,

S. P. Adarkar
