IHF-100, December of 1962, Pleural Asbestosis, American Practitioner Digest of Treatment.

Asbestosis and Carcinoma of the Lung, in Cancer magazine, November of 1962.

IHF Number 72, dated 1967, The Pneumoconioses.

And the last is IHF Number 117, dated June of 1947, which is the Industrial Hygiene Foundation report of a preliminary dust investigation for the Asbestos Textile Institute by Mr. Hemeon.

MR. SMITH: Do you want to read a sentence or two from the Hemeon report?

MR. IGNATOWSKI: Not at this time. You don't have it on the overhead, do you?

MR. SMITH: Yes, I do.

MR. IGNATOWSKI: I am sorry, yes, I didn't think I had that on the overhead.

THE COURT: All of those items will be admitted in evidence.

MS. TOSTANOSKI: Your Honor, for the record,
