SUBJECT: Minutes of March 16 Meeting

Just a quick summary of our meeting earlier today to discuss updating the inter-industry study of VCM/PVC industry workers. We agreed to the following:

1. Dow supports an update to the original study and will sign a commitment form to CMA pledging financial support (estimated at ~50M spread over 1994/1995). Jonathon Ramlow of Dow will succeed G. Bond as chairman of the CM Vinyl Chloride Research Coordinators group. He will communicate progress to the group above on a periodic basis.

2. Dow will participate, but not chair a task group that will consider additional toxicology/human health research on VCM/PVC. Jean Domoradzki, Bill Hayes and Jonathon Ramlow will coordinate Dow's participation with Jean likely taking the lead. Decisions on supporting any additional research will need to be put before the larger group.

If you have any questions about this please feel free to contact me. -- Greg

SUBJECT: Agenda for March 16 Meeting

I apologize for the delay in getting you an agenda for the meeting scheduled tomorrow morning from 8:00 to 9:00 am in 2020 Lab 13 Conference Room.

Purpose: To make a decision as to whether or not to support a CMA sponsored update to the inter-industry epidemiology study of vinyl chloride industry workers, and to discuss what position the business wants to take regarding an future research on VCM toxicity.

8:00 Historical Perspective G. Bond
8:10 Current Plan to Update Inter-industry study G. Bond
8:15 Benefits of Updating Inter-industry study G. Bond
8:20 Discussion and Decision to Support All
8:30 Future Research Options G. Bond
8:40 Discussion and Decision on Position G. Bond
9:00 Adjourn

Greg
